How to Order through this BPA

Planet Associates offers a variety of ordering options to meet your procurement needs, including telephone, fax, or mail.

Ordering via this BPA is decentralized. Orders are prepared by an authorized Government Ordering Officer, in accordance with the terms and conditions of this BPA and the GSA Schedule, or prime contractor authorized by a Government Contracting Officer in accordance with FAR Part 51. Orders may be placed by EDI, credit card, facsimile, on an authorized form such as a Standard Form (SF) 1449 or Department of Defense (DD) Form 1155.

Planet Associates' price list is available at <http://www.planetassoc.com/SmartBUY>.

Please supply the following information when you place your order:

- Government Customer
- Government Ordering Officer or Government Contracting Officer (authorizing Prime Contractor)
- Authorized Prime Contractor and/or any Authorized Sub-Contractor
- Order Contact Name
- Order Contact Organization
- Invoice address, phone number, and attention
- Purchase order number
- Cost center number, release number, job code, or any other information to be captured
- Quantity and description of product(s) to be ordered
- Government Customer End user name, phone number, and email address.
- Shipping address, phone number, and attention
- Shipping method

Cage Code Number: 3EQV9

Overview

In the spirit of the Federal Acquisition Streamlining Act, the General Services Administration (GSA), Federal Acquisition Service (FAS), SmartBUY Program Management Office (PMO) and Planet Associates, Inc. enter into an agreement to further reduce the administrative costs of acquiring commercial items from the General Service Administration (GSA) Federal Supply Schedule (FSS) Contract (GS-35F-0928N).

FSS Contract Blanket Purchase Agreements (BPAs) reduce contracting and open market costs such as: search for sources, the development of technical documents, solicitations, and the evaluation of bids and offers.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The objective is to create a purchasing mechanism for the Government that works better and costs less.

Authorized Users. This BPA has been designated as a GSA/FAS/SmartBUY PMO and DoD/ESI Agreement and is open for ordering by all United States Federal agencies, Department of Defense Components, authorized state and local government entities, and authorized contractors. For the purposes of this agreement, a DoD component is defined as: the Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Inspector General of the Department of Defense (DoD IG), the Defense Agencies, the DoD Field Activities, the U.S. Coast Guard, and the Intelligence Community. GSA or other applicable ordering organizations/agencies are authorized to place orders under this BPA on behalf of DoD end users and must comply with DFARS 208.7400. This BPA is also open to all cost-reimbursement Contractors authorized to order in accordance with FAR Part 51.

About Planet Associates, Inc.

Planet Associates, Inc., with headquarters located in Eatontown, NJ, is a Veteran-owned Small Business that pioneered the concept of Infrastructure Relationship Management (IRM) in the 1990's. Planet Associates develops, licenses and supports the Planet® IRM family of infrastructure relationship management software products. Planet IRM enables government organizations to support strategic and tactical priorities while providing a visualized, centralized and consolidated Configuration Management System (CMS) of both physical and cyber infrastructures and associated dependencies. It is a comprehensive solution that integrates IT asset management to physical infrastructure through a visualization engine equipped with extensive analysis tools. In addition, it integrates orphaned IT infrastructure data (e.g., Visio drawings, Excel spreadsheets, hand-crafted databases, and static data calls) into an accurate, collaborative, real-time data repository.
